CAMBOURN**

www.wjccontracting.com.au 🔍

Introduction

WJC Contracting offers highly specialised boilermaking and fitting services to the Western Downs area. With over 15 years experience, we have extensive knowledge in all areas of power generation, mining, agriculture, heavy earth moving as well as commercial and structural steel fabrication and erection.

Our Philosophy

Our focus is to provide a high-quality service that exceeds our clients' expectations without compromising on quality or safety. WJC positively promotes the health, safety, and wellbeing of all our employees as well as the contractors and companies that we engage with. We complete an extensive array of complex projects safely, on time and to the highest of standards.

We offer

WJC offers a broad range of services, specialising in mechanical fitting, heavy and light fabrication boilermaking, rigging and dogging and general labour hire. Fully equipped site vehicles with high quality, reliable tooling ensures we can deliver projects reliably, safely, and efficiently with 24/7 availability.

OUR

SERVICES

We offer 24/7 availability with a team of fully qualified and licensed professionals, ready to respond whenever needed — including after-hours and emergency call-outs. Our competitive rate structure reflects our commitment to providing reliable, high-quality service without compromise.

MINING

Experienced in heavy engineering/boilermaking on trench diggers, pipe layers, dozers, dump trucks, front end loaders, scrapers, excavators, drag line buckets, drag lines, shaker station overhauls, wash plant maintenance structural steel standing and reading designs & plans.

AGRICULTURE

Servicing all farming machinery including tractors, planters and more. As well as, fabricate & repair work on cattle crates, construction of irrigation water pump stations and manufacturing horse floats.

POWER STATIONS

Extensive experience in power generation, including air heater and furnace overhauls, burner fit outs, duct work, mill and turbine maintenance, valve and pump replacements, structural fabrication, and major shutdown scopes.

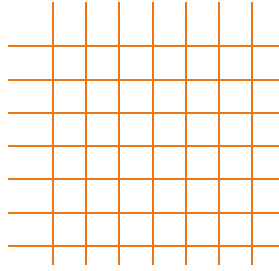

MECHANICAL FITTING

WJC Contracting provides expert mechanical fitting solutions for the energy, mining, and gas sectors.

Our team is experienced in:

- Equipment installations and shutdown support
 - Pump, valve, and gearbox rebuilds
 - Hydraulic and pneumatic system repairs
- Rotating equipment overhauls and shaft alignment
- Troubleshooting and breakdown repairs onsite

With fully equipped vehicles and qualified trades, we ensure fast, efficient, and reliable support across field and workshop-based jobs.

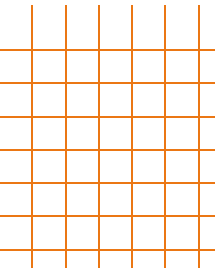

FABRICATION & WELDING

Processes:

- SMAW / MMAW (Stick), GTAW (TIG), GMAW (MIG), FCAW
- Plasma cutting, air arc gouging, oxy-lancing

Capabilities:

- Structural steel fabrication to AS 1554.1
- Pressure welding to AS/NZS 3992:2020 and ISO 9606-1
 - Pipe welding in 3G, 4G, and 6G positions
 - Carbon, stainless, and alloy steel materials
- Weld traceability, WPS procedures, and third-party inspection

Our pressure welders are qualified and experienced in both workshop and field conditions, including confined space and elevated work environments.

GAS AND PIPELINE

WJC Contracting supports gas and pipeline maintenance with:

- Certified pressure welding for steel pipelines
- Field-based weld remediation and defect repairs
 - In-situ pipeline welding and tie-in support
- Safety and compliance with confined space protocols

With experience in pipeline inspection collaboration, pressure code welding, and gas industry standards, we're equipped for fast mobilisation and high-integrity work.

TICKETS & LICENSES

OUR SERVICES

- Certificate III in Engineering-Fabrication (Heavy Fabrication-Boilermaking) (MEM30305)
- Certificate II in Engineering (MEM20105)
- Certificate IV in Engineering (MEM40119)
- Certificate III in Engineering-Mechanical Trade (MEM30219)
- Certificate I in Construction
- Certificate III in Basic Rigging CPCCLRG3001A
- Certificate III in Dogging CPCCLDG3001A
- Licence to operate a none-slewing mobile crane (Greater than 3T) LILIC0008
- Licence to operate a EWP (boom length 11m or more) LILIC0005
- Licence to operate a forklift truck TLILC2001A
- Course in General Safety Induction (Construction Industry) (3021QLD)
- 30215qld-course in general safety induction (construction industry)
- RIIWHS202D Enter and work in confined spaces
- RIIWHS204D Work safely at Heights
- Surface mining induction (standard 11)
- Coal board medical

CRANE OPERATION, DOGGER & RIGGER

- Certificate III in Basic Rigging CPCCLRG3001A
- Certificate III in Dogging CPCCLDG3001A
- Licence to operate a none-slewing mobile crane (Greater than 3T) LILIC0008
- Experienced in dual lifts, crane operation, dogger and rigger.

WH&S Management Plan

Our Policy

WJC Contracting regularly undergoes inspections by an independent third-party welding supervisor to conduct routine welding testing and inspection to ensure all WJC Contracting workers maintain welding standards. WJC Contracting works closely with each client to uphold health, safety, and quality assurance standards. We source locally whenever possible.

Safety First

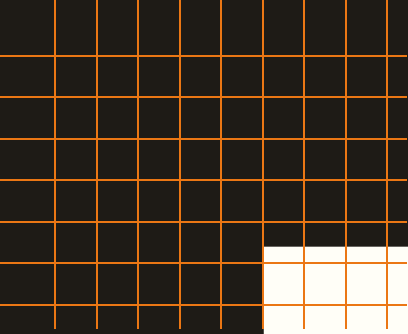

Safety management is critical for the successful completion of any project. We promote a safety culture that encourages individuals to proactively manage health and safety risks through education, instruction, information, and supervision. WJC Contracting clearly defines and communicates responsibilities related to health and safety with staff, contractors, and visitors. Our team understands and adheres to the project's safety values and can comply with safety policies and procedures.

Our staff hold extensive qualifications including working at heights, confined space training, first aid and CPR, safety certification, welding certificates, and equipment operation certifications. All tradespeople hold their Certificate III or IV in their respective professions and are highly experienced to undertake their roles. Their extensive training ensures they have the knowledge and skills to work safely. We take all reasonable precautions to provide and maintain a safe work environment achieving ZERO HARM.

**Companies we
have worked with:**

CS Energy
Silver City Drilling
UGL

WR Cranes
Downer
Kellco Rural

OUR PROMISE

WJC Contracting prioritises health, safety, and workforce certification. Our WHS management plan ensures full compliance with all relevant regulations, particularly for high-risk work such as confined space entry and working at heights.

All personnel hold current qualifications and are regularly assessed for competency. Our welders are certified to Australian standards, including AS 1554.1 for structural steel, AS/NZS 3992 for pressure welding, and AS/NZS ISO 9606-1 for welder qualification. Strict welding procedures are followed to ensure consistent, high-quality results across all applications.

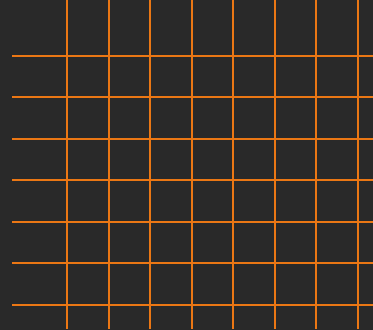

OUR MISSION

At WJC Contracting, our mission is to deliver reliable, safety-critical trades and services that support the continued operation of Australia's energy and resource sectors.

We achieve this through disciplined workmanship, on-time delivery, and a commitment to uncompromised structural integrity.

We work closely with our clients, responding quickly, adapting under pressure, and ensuring every job is completed to the highest standard.

We are also committed to developing the next generation of tradespeople by creating meaningful opportunities for young workers to become skilled, safe, and industry-ready.

THANK YOU

For project opportunities or further information, please get in touch. I'd welcome the chance to discuss how WJC Contracting can support your operations.
